

Table of Contents.....	2
Chapter 1: Getting Started	5
<i>Certification.....</i>	<i>5</i>
<i>Teaching Using This Book.....</i>	<i>5</i>
<i>School Equipment.....</i>	<i>6</i>
Simulator	6
Kiting Gear	6
Weighted Frame	6
Wings.....	6
Throttle Simulator With Buzzer	6
Motors	6
Radios.....	7
Video Camera.....	7
Tow Gear.....	7
Safety Gear	7
Student Study Materials.....	7
<i>Priorities.....</i>	<i>7</i>
<i>An Awesome Responsibility.....</i>	<i>8</i>
Chapter 2: Fundamentals of Instructing.....	9
<i>The Learning Process.....</i>	<i>9</i>
Learning Principles.....	9
Perception and insight	10
Memory	10
Forgetting and Retention	10
Transfer of Learning.....	10
Levels of Learning.....	10
Domains of Learning	11
Learning Skills and the Learning Curve.....	11
<i>Barriers To Learning.....</i>	<i>11</i>
Self Concept.	11
Defense Mechanisms.....	11
Stress and Anxiety.....	11
<i>Human Behavior & Effective Communication</i>	<i>12</i>
<i>Student Types.....</i>	<i>12</i>
Mechanical Learners	12
The “Natural”	12
Slow Learners.....	12
Gung Ho	13
Know-It-Alls	13
Chapter 3: Organizing the Course.....	14
Paragliding First?.....	14
Efficient Structure	14
Chapter 4: Simulation & Rehearsal.....	15
<i>Realism.....</i>	<i>15</i>

<i>Negative Training</i>	15
<i>An effective Simulator</i>	15
Chapter 5: Emergency Training	16
Chapter 6: Teaching Kiting	17
Light wind	17
Stronger wind	17
Chapter 7: Teaching From Preflight Through Climbout	18
<i>Preflight</i>	18
<i>Launch</i>	18
<i>Getting into the seat</i>	18
Chapter 8: Teaching From Inflight Through Landing	19
<i>While Airborne</i>	19
<i>Landing</i>	19
Pattern.....	19
Flare.....	19
Forward Inflation Issues	19
Reverse Inflation Issues.....	19
<i>Climbout</i>	19
<i>Turns</i>	19
<i>Changing Speed</i>	19
<i>Go-Around</i>	19
<i>Approach</i>	19
<i>Touchdown</i>	19
<i>Postflight</i>	19
Chapter 9: Ground School	20
Chapter 10: Towing	21
<i>Equipment</i>	21
Turnaround Pulley	21
Weak Link	21
Line Cutting Device	21
<i>Weather</i>	21
<i>Qualifications</i>	21
<i>Safety Equipment, Personnel & Practices</i>	21
<i>Operation</i>	22
Hand towing	22
Moving vehicle towing – less than 500cc.....	23
Moving Vehicle Towing – 500 or over cc.....	23
Payout Winch	23
Scooter Tow – Straight In.....	23
Scooter Tow – Turnaround Pulley.....	23

Chapter 11: Equipment	24
<i>Student Provided Gear</i>	24
<i>Test Flying.....</i>	24
Chapter 12: Free Flight Transition Training.....	25
<i>Overview.....</i>	25
<i>Habits that need to be broken and how</i>	25
Leaning Forward on Launch.....	25
Letting off the Throttle during launch	25
Not countering the Torque To Steer Straight.....	25
Turning Against The Torque	25
Not Being Quick Enough on the Kill Switch	25
Lifting the Feet Too Early	25
Extreme Risk of Prop Injury to Pilot and Bystanders.....	25
Preflight Importance for Loose things.....	25
Being Quick on the Throttle when turning to Launch in a windj	25
Trying to run backwards on a Reverse	25
Smooth Throttle Usage.....	25
Chapter 13: The Business	26
<i>Marketing</i>	26
<i>As Your Only Income.....</i>	26
Legal.....	26
Chapter 14: Teaching While Aloft – The Tandem	28
<i>Foot Launched.....</i>	28
<i>Wheel Launched.....</i>	28
