

Powered Paraglider (Paramotor) Commercial Flight School Insurance

First Flight also offers a more extensive Commercial General Liability coverage package for commercial powered paragliding s.. This program includes liability coverage for the school's premises, plus 3rd party and participant injury liability.

Who Qualifies for This Program?

Current PPG3 rated pilots who are certified powered paragliding instructors. Instructors must be owners or employees to be covered under the policy. All powered paragliders used for training must be registered with USUA. All operations are subject to FAA exemptions and requirements.

Each application is underwritten individually based on business and training experience, safety record, size and type of operation and optional coverage required.

Coverage:

- General and Premises Liability for the business location(s) (excludes products and completed operations)
- 3rd Party Liability for Bodily Injury and Property Damage possibly caused by instructor
- Participant Liability if student is injured (must have a signed waiver and be an active student under instructor supervision)
- Medical Expense of \$1,000 for minor injuries
- Training aircraft can belong to others as long as it meets policy criteria

How Do I Apply for Commercial Insurance Coverage?

Step 1: Be a PPG 3 rated pilot and USPPA certified PPG instructor. Make sure all training powered paragliders are registered with USUA.

Step 2: Visit the [First Flight Insurance Group, Inc.'s website](#), and select a broker in your state. Ask the broker to send an application to you.
