About the Illinois Ultralight and Light Plane Safety Seminar

The Illinois Ultralight Advisory Council was formed over 31 years ago to work with the Illinois Department of Transportation and the Federal Aviation Administration to further the safe growth of what was at the time an emerging sport. One of the innovative ideas they brought to the sport of ultralighting was the Illinois Ultralight Safety Seminar Program.

The Illinois Ultralight Safety Seminar Program was developed to bring ultralight pilots together to learn from one another and from experts in the field. From rather humble beginnings, the founders grew the program to one of the largest safety seminars –for any type of aircraft– in the state. Furthermore, their model for a safety seminar program has been duplicated in several states helping to make the sport of ultralighting safer for pilots all across the country.

The safety seminar program is supported by the State of Illinois and our sponsors. Many sponsors offer items for door prizes and for raffle prizes.

Just by attending, you have an opportunity to win a door prize. The registration form you filled out when you arrived is used for a drawing which is held before each break. There are dozens of prizes for you to win. If you want to win even larger prizes, you can do that by purchasing a raffle ticket. Your purchasing of a raffle ticket helps us defray the travel costs of our speakers and provides you an opportunity to win a great aviation related prize.

Our raffle is set up so that you can concentrate your chances to win the prizes you want and can use. After you purchase your ticket –or hopefully TICKETS– you have a choice of several items to try to win. If you want a free pass to AirVenture 2011, choose that container. If you want a Sport Link Headset, choose that container. Tickets are modestly priced at 1 for \$1, 12 for \$10 or 30 for \$20 so you can participate in this fun and exciting raffle.

Even your lunch money goes to a good cause, the local Boy Scouts who prepare the dining area, arrange for the food, and clean up the entire hall after the seminar is over. Buy a lunch ticket, dine in, visit with friends during lunch, and support Scouting!

Thank you for attending and supporting the 31st Annual Illinois Ultralight and Light Plane Safety Seminar. We hope to see you again next year!
